

**DAVID MUMFORD***Senior Director, HPDI Product and Strategy*

David Mumford has been a part of Westport since April 1999, helping the company grow from less than 40 employees to approximately 1500 today. He has worked with multiple OEMs on engine and vehicle applications ranging from Heavy Duty Euro V, VI and the upcoming EU VII truck engines and systems, up to demonstration locomotive engines using Westport's patented High Pressure Direct Injection (HPDI) technology.

Mr. Mumford has co-authored numerous papers related to Westport technology and holds several Westport patents in the area of HPDI and mono-fuel injectors.

Mr. Mumford is currently the Senior Director for Westport's HPDI Product and Strategy.

**About Westport Fuel Systems**

At Westport Fuel Systems, we are driving innovation to power a cleaner tomorrow. We are a leading supplier of advanced fuel delivery components and systems for clean, low-carbon fuels such as natural gas, renewable natural gas, propane, and hydrogen to the global transportation industry. Our technology delivers the performance and fuel efficiency required by transportation applications and the environmental benefits that address climate change and urban air quality challenges. Headquartered in Vancouver, Canada, with operations in Europe, Asia, North America, and South America, we serve our customers in more than 70 countries with leading global transportation brands. At Westport Fuel Systems, we think ahead. For more information, visit [www.wfsinc.com](http://www.wfsinc.com).
