

		WFS Italia Water Resource Management Policy (excerpt)
Country:	All	
Site:	All	

Westport Fuel Systems Italia S.r.l. and its directly or indirectly controlled subsidiaries (jointly referred to as “Westport Italia”, “WFSI”, “WFS Italia”, the “Company” or the “Group”) recognize water as a fundamental resource for life, ecosystems and sustainable development, as well as an essential human right, in line with the United Nations Sustainable Development Goals.

The Group is committed to:

- using water resources efficiently and responsibly;
- preventing and reducing environmental impacts related to water consumption and discharge;
- promoting continuous improvement in water resource management;
- integrating, where possible, water management into decision-making processes, risk management and corporate sustainability strategies;
- ensuring compliance with applicable environmental regulations.

Water resource management is an integral part of the Group’s sustainability strategy and is overseen by the Board of Directors, which ensures its alignment, implementation and monitoring. The Group adopts a preventive and continuous improvement approach, integrating water-related risks into decision-making processes and environmental management systems.

In the absence of water use process, efforts are focused on optimizing consumption, preventing waste and promoting responsible behavior among employees and throughout the value chain. Westport Fuel Systems Italia S.r.l. also ensures compliance with applicable regulations and promotes the adoption of environmental management systems in line with international standards such as ISO 14001.

The Company ensures monitoring of its performance and transparent communication of results, with a view to continuous improvement and accountability towards all stakeholders.

The Water Resource Management Policy was approved by the Board of Directors on **May 18, 2026**.
