Westport Fuel Systems Italia S.r.l. and its directly or indirectly controlled subsidiaries (jointly referred to as “Westport Italia”, “WFSI”, “WFS Italia”, the “Company” or the “Group”) are committed to operating in an environmentally and climatically sustainable manner, reducing the impacts of their activities on the environment and contributing to the transition towards a low-carbon economy.

The Group integrates environmental and climate responsibility principles into its strategy, decision-making processes and operations, adopting an approach focused on prevention, risk management and continuous improvement.

In particular, the Group is committed to:

- ensuring compliance with applicable environmental regulations and major international conventions;
- progressively reducing greenhouse gas emissions and improving energy efficiency;
- promoting the responsible use of natural resources, including water, energy and raw materials;
- adopting environmental management systems in line with international standards such as ISO 14001;
- integrating environmental and climate criteria into supply chain management;
- preventing and managing environmental risks across operations;
- promoting a corporate culture oriented towards sustainability through training and awareness;
- developing innovative solutions and products that reduce environmental impact throughout their lifecycle.

Environmental and climate responsibility is an integral part of the Group’s governance system and is overseen by the Board of Directors, which ensures its strategic alignment, implementation and monitoring.

The Group adopts a continuous improvement approach, based on the collection and analysis of environmental and climate data, performance monitoring, and transparent communication of results to stakeholders.

The Environmental and Climate Responsibility Policy was approved by the Board of Directors on **May 18, 2026**.
