

Approved by the Board of Directors on July 31, 2026

Board Oversight

This policy is approved by the Board of Directors of Westport Fuel Systems Italia S.r.l. (the “BoD”) which ensures its alignment with the Company's strategy, including quality, product safety, and ESG objectives.

1.0 INTRODUCTION AND SCOPE

Westport Fuel Systems Italia S.r.l. and the companies directly or indirectly controlled by it (jointly, "Westport Italia" or "WFSI" or “WFS Italia” or the “Company” or the “Group”), operate in the design and manufacture of systems and components for alternative fuel vehicles and are committed to the continuous improvement of the quality of products and services provided to Customers, ensuring high standards of Product Safety throughout the entire product life cycle through the adoption and continual improvement of management systems compliant with ISO 9001, IATF 16949, ISO 14001, and applicable requirements, within an approach integrated with ESG principles.

The concept of Product Safety extends to all company processes, including design, industrialization, production, supply chain, and after-sales activities, with particular focus on supplier management and compliance throughout the value chain.

It is not limited to the protection of the end user but also extends to potential social and environmental impacts, including the protection of workers, communities, and the environment, in compliance with applicable requirements and customer expectations.

1.1 OBJECTIVES

For Westport Fuel Systems Italia S.r.l. the primary objective is to design and manufacture safe products, helping to prevent accidents from occurring and minimizing their consequences, while protecting end users, people, and the surrounding environment.

In accordance with the Quality Policy, with regard to Product Safety, the organization pursues the following objectives:

- Maintain leadership in component systems for alternative fuel vehicles by fostering synergies with the other companies within the Westport Fuel Systems Italia S.r.l. Group, with particular focus on Product Safety.
- Promote and monitor the dissemination, deployment, and compliance with Product Safety requirements, as well as related regulations and guidelines, throughout all processes, sub-processes, and across the value chain (Tier 1 and Tier N suppliers), in accordance with applicable requirements and customer specifications, while promoting responsible practices among suppliers and business partners.
- Strive to achieve zero incidents involving Westport Fuel Systems Italia S.r.l. products through the design and manufacture of high-quality products and through cooperation with customers to ensure their proper application and use.
- Promote the continual improvement of Management Systems in order to enhance quality performance and Product Safety performance.

1.2 IMPLEMENTATION AND MANAGEMENT COMMITMENT

Management, meaning the Top Management of the organization with responsibility and authority for the management of business processes, is committed to promoting and disseminating this Policy.

Westport Fuel Systems Italia S.r.l. promotes a Product Safety culture throughout the organization at all levels through training, engagement, awareness, and employee accountability.

The implementation status of this Policy is monitored through performance indicators and periodically reviewed by Management as part of the Management System Review process, ensuring its continued suitability in relation to the organizational context, emerging risks, and applicable requirements.

2.0 POLICY REVIEW

This Policy shall be communicated, understood, and applied at all levels of the organization and shall be reviewed at least annually by Management as part of the Quality Management System Review process.

It shall be submitted to the Board of Directors in the event of substantial revisions or significant changes to the business context, strategic direction, or applicable requirements.
